

## Don't Forget the Best

The Old Reliable Hoosier and Superior drills, that have been time tested and tried. Ask your neighbor what drill he uses, and about nine out of ten will say Hoosier or Superior. A drill is made to sow your grain and fertilizer and must perform that duty exactly or it is worse than no drill.

Then again, you use a drill only a very few days each year, but when you want it you want it badly.

Don't wait for your neighbor's drill but get yours' now while you can get your kind and size.

### LEBANON AND BORDER LINE

Miss Althea Armstrong

Dear readers of the News: This week we can only drop a few words of apology as to our delinquency as a correspondent, having just returned (Monday morning) from Sedalia where we attended the State Fair in full session and had a short visit with friends. Next week we hope to take up our regular correspondence again, and also give a sketch of each days attendance of the fair, together with an outline of "Camp life in the white city" when weather was pleasant and also when it rained.

## We Invite You To Our Funeral

If on September 2, you see a bunch of Cypres tied to our door, it will mean that we have "kicked the bucket" or to express ourselves in more refined language which will not be offensive to the cultured ears of our elite and scholarly readers will say, "That we have propelled our pedal extremities with such violence as to overturn the cylindrical vessel used in the transportation of aqueous vapor and other liquids." Our creditors have a rope around our necks and unless we produce the funds to meet our obligations September 1, they will swing us "Higher on Haman." If you owe us a bill or your note is due September 1 come to our rescue at once as only one thing can save us; that is money. Money! MONEY. Our money is all gone—Our credit is exhausted—We are absolutely in the hands of our friends. We want the Spondulicks, we need the dough, we must have the money. DO YOU GET US?

## Seven Carloads Fertilizer This Week

We have received one carload bone meal here and we expect three cars of mixed goods here this week and three carloads at Carytown. The season is just now opening. It takes over Ten Thousand Dollars to pay for this seven cars of fertilizer. That is why we are asking you to settle up by September 1st. Some tell us that they can order their own fertilizer cheaper than we sell it. Maybe that is true and that is your privilege. All we ask is that you pay us for what you have bought of us, as we do not handle fertilizer for the fun we get out of it. Some ask us "Is it a fact that your fertilizer notes hold a lien on the crops?" Our answer is, "Yes, it does." We admit after selling goods in Jasper for over twenty-five years, that our vision is not strong enough to distinguish those that will pay from those who won't, and the lien on the crop helps us to collect from those who forget us. Better come for fertilizer when we call you. Cars are scarce. We also received some good seed rye. Nothing beats rye for fall pasture.

Come See Your Humble Servants.
